Campaign of #LightNotHate

OUR THREE AIMS EXPLAINED

1. To Remove Destructive Family Lawyers
50% of Family Court Users are Litigants in Person
To achieve 80% of LIPS by 2025

HOW?

Educate Service Users that you don't need Family Lawyers and to stop hiring them

2. Challenge the Family Court from the Inside

Litigants in Person to use their voice with simple messages

FOR EXAMPLE

How to challenge Cafcass Section 7 Reports (See the Video)

To challenge spurious allegations based on hate (See the Video)

To challenge the manipulation of Draft Orders (Coming Soon)

3. To Take the Path of #LightNotHate

To educate parents to stop the vindictive and spiteful allegations of hate, the manipulation of the family courts, and the weaponising of children with the intention of reducing minimising and denying contact that destroys childhoods.

15/12/21 Judiciary Provides new guidance on electronic court bundles which is of course hilarious for any Litigant in Person to try and follow.

If the other party is legally represented the lawyer will do it.

Why should LIPs be expected to do Court Bundles at any time? We pay for a service and the court should do it. [CLICK HERE](#)
